

September 2008

Dear Dr. Ceydeli,

Saying thank you to for your excellent care just does not seem like enough. Both of my surgeries have been such wonderful experiences mostly because of your kind attention and of course your expertise. I feel at a loss of words at being able to express to you what you have done for me.

I have always accepted myself for who I am, but also a true believer in plastic surgery. I had no idea how much the breast reduction surgery would affect me. I feel like I have been given a new life to live. Suddenly I can wear clothes that I never thought possible, I don't look like a freak show in my bathing suit, I can go without a bra and still look pretty and perky (I have had to wear a bra since the 2nd grade!!). The breast reduction gives my appearance as if I have lost 30 pounds, I now have a waist!! All of this makes me feel years younger than I am. I never expected to have the emotional joy attached to this surgery, I was just hoping to get relief from the physical problems, I got both!!

Besides the look and feelings associated with this surgery I have really grown to have a great respect and admiration for you. You always treat me and all you patients as friends, this makes me feel very comfortable with whatever you suggest for me. You took the time to call on my cell phone to just check up on me a couple of days after surgery, this is unheard of with most physicians, but it meant so much. I just wanted to let you know of the difference you have made in my life. All of your care, concern, and excitement for what you do is what sets you apart from other physicians. Don't ever change!!

Your immediate concern for the lumps in my breasts put me at total peace knowing you were going to take care of the problem with a preciseness that could not be compared. You saved me months of mental stress by addressing the situation so quickly. Not only did I come out with a wonderful outcome, but with even a better outcome on the breast reduction. Throwing in the liposuction was a gift and I am truly grateful. It is definitely something I would not have been able to afford otherwise. (Although I am hooked and want more now!!)

Still this seems like such an insignificant way to thank you, I feel truly indebted to you. If there is anything I can do for you, please let me know.

Respectfully,

☺

P.S. We need to find a way for insurance to pay for a nose job!! A tummy tuck would be nice, but I don't see how we could make this a legitimately needed surgery in their eyes!! I volunteer to be your extreme makeover candidate☺
